Viewmate security upgrade kit - option 982

This security kit upgrades all standard Viewmate products with clamp-lever height adjustment, to an anti-theft solution. The kit contains a steel stopper and its special mounting tool. After mounting the stopper on a pole of a Viewmate product, it prevents the removal of parts with clamp-lever height adjustment.

- Sturdy anti-theft solution
- Unremovable without the special tool that is included
- Compatible with all Viewmate products that have clamp-lever height adjustment
- Kit contains a stopper plate, special tool and threaded pole adapter
